

POTOMAC VIEW ELEMENTARY SCHOOL – January 2023

End of Quarter

As we come to the end of Second Quarter of the school year, I want to celebrate all the staff and students on a job well done. This year has been very busy and a lot has occurred since that first day on August 15, 2022 when we opened the doors to begin the 2022-23 school year. We have two quarters remaining for this school year, and there are so many things we need to accomplish before June 15, 2023. Parents, we need your support in making sure your child is at school, on time, each day ready to learn. Please be sure your child is getting enough sleep and charging their computer each night. We appreciate all you are doing to ensure your child has a successful school year.

Reading and practicing math facts nightly will help your child build their confidence and expand their academic knowledge. K-2nd grade students are expected to read for at least 20 minutes each night and 3rd-5th grade students are expected to read for at least 30 minutes each night. Reading with your child makes it more fun for them and you can talk to them about what they are reading. We ask that you also practice addition, subtraction, multiplication and/or division with your child each night as well. You could play a game or use flashcards. I promise, you will see results if you do this each night.

Parents, we need your help. We are working on getting parents more involved at Potomac View Elementary School (PVES) and are requesting your feedback through a quick survey. This survey is anonymous and will help us better meet your needs in supporting your child in school. Please use the link or QR code to complete the survey by Tuesday, February 1, 2023.
